

OUR MISSION

To deliver quality labour support, equipment and maintenance solutions, minimising your costly downtime.

We aim to provide practical mechanical solutions executed efficiently by our talented team of technicians. We strive to be a company that you can trust for world class servicing, at competitive rates.

OUR HISTORY

As a fully owned and operated Western Australian business, EMS is in touch with the W.A. mining, construction and support service industries.

With humble beginnings, EMS has undergone many transformations to become the strong business that it is today.

Owners, Shane and Jody, still have a day to day hand in the operation of the business ensuring it maintains its family feel.

Committed to a team individually chosen for their commitment, skills, approach to safety and positive attitude ensures that we are leaders in our industry.

OUR SERVICES

Site Support

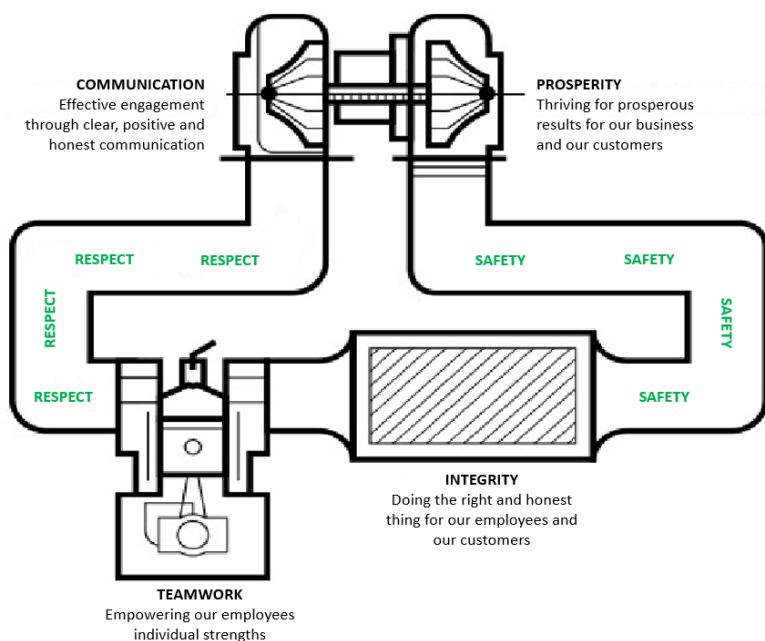

Long and short term maintenance solutions

Field Service

Breakdown response and support

Shut Down Teams

Highly experienced teams of tradespeople to provide end to end shutdown and rebuild support

SAFETY

EMS believes in an integrated approach to our management of Health, Safety & Environmental issues

Our HSE Management System has been designed to protect the safety, health and welfare of our personnel and others who may be affected by operations.

This management system involves a risk-based approach that enables us to meet our commitments to employees, clients and regulatory authorities.
