SOLARLUX LED Solar Light Assembly

The SOLARLUX LED Solar Panel walkway lighting unit is an innovative compact lighting solution for remote outback, regional areas where lighting is a safety issue. Suited ideally to overhead walkways on fixed plant & structures, these units do not need power as they are a totally self contained self sufficient lighting unit. Fitting directly between the handrail balustrade systems around fixed plant or any similar situation, the Solarlux Solar LED lighting system supplies consistent light output creating a safer workplace.

GENIUS Solar Charge Regulator Controller 5A (PWM)

The Mini 6w LED flood light is an Ultra bright, Ultra light, Ultra wide miniature flood light that only draws 0.5 amps. With 32 Wide angle SMD LEDs, it is the perfect light to flood any area. Pumping out an impressive 500 lumens from such a compact lightweight body and continuing to supply bright white light for 50,000 hours, it is sure to impress.

These Solar poles are designed and assembled in Australia and feature the very latest in solar and LED technology. These units are a truly Australian designed self-sufficient maintenance free units, which are ideal for use in remote areas or simply in areas where running new cables or sourcing mains power is not available or too expensive.

FEATURES

- Advanced MPPT technology, with efficiency no less than 99.5%
- Maximum conversion efficiency of 98%
- Ultra-fast tracking speed
- High accuracy of recognizing and tracking of multiple power points
- Automatic function of maximum PV input power
- Wide MPP operating voltage range
- Die-cast aluminium body and excellent heat dissipation
- Load controls: Manual control, light ON/OFF, light On + Timer control
- Support 4 Charging options: Sealed Gen, Flooded and User
- Battery temperature compensation function
- Real-time energy statistics function
- RS-485 communication bus interface Modbus protocol
- PC monitoring and external display unit supports
- Software upgradeable

PROTECTIONS

- PV short circuit and over current protection
- PV and Battery reverse polarity protection
- Battery over discharge and voltage protection
- Load overload protection
